PIKE AT THE WORLD'S FAIR WILL BE ONE-SIDED STRETCH OF SHOWS FACING EXPOSITION PALACES.

One-sided "Pike" as it will appear in relation to main Exposition bu ildings.

A one-sided Pike, separated its entire length of 4,000 feet from the main Exposition palaces by gardens and trees, is the definite layout of the amusement section at the World's Fair.

This decision has been reached by the Exposition management in view of the atty ornate facades of the shows along the follows a line parallel with Skinker road titude taken by the Fire Prevention Bureau. Pike will, therefore, face the Exposition and the end of the Transportation palace. which insists on an open area of 3.00 feet palaces without any intervening buildings. between the buildings along the Pike and This arrangement is a radical departure

SOME RELIEF CAME

x Prostrations From Heat Wer Reported, One Being a Serious Case.

FATALITY IN EAST ST. LOUIS.

Highest Point Registered Was 96 Degrees, and Weather Is Expected to Continue Abnormally Warm.

A thunderstorm and rain yesterday be tween 1 and 2 o'clock in the afternoon kept the mercury from climbing as high as on the previous day. The highest point reached was 96 degrees at 12:30. One hour and a half later the temperature had fallen 21 degrees and the thermometer showed only

The temperature then rose stendily till 89 degrees was registered at 6 p. m. The rain tenths of an inch had fallen in downtown ceased. Further out in the city little, if

any, rain fell. Robert Keaton, a teamster employed at the World's Fair grounds and living at No. 4212 Gratiot street, died at the City Hospital late inst night.

Other sufferers were: August Silver of No. 1805 North Fourteenth, employed at Heydt's bakery, Sixteenth and Biddle streets; Frank Schiller of No. 1708 South Ninth street, employed at a brush factory at No.-1122 Pine street; Henry Rankin of No. 1123 North Tenth street, employed as a Kuhl, a tanner, of No. 1725 Dt Kalb street; Murtin Renz. of No. 2101 Vine avenue, Maplewood; William Sexhauer of No. 7711 Virginia avenue, and W. A. Stevens, laborer,

The Weather Bureau gives no encourage ment for cooler weather in the near future The forecast is for partly cloudy skies with thunderstorms, but continued warm. The lower temperature following yesterday's thunderstorm was only temporary relief and the mercury will probably regain all the lost ground to-day. The following wer the thermometer readings from 6 a, m, to 6

p. m.r 12:00 p. m...

the high point of Thursday, there were eat prostrations and one death in East St. Louis yesterday. According to physicians, the humidity of Alto Pass., Ill., July 10.-This season's

the East St. Louis atmosphere is greater than that of St. Louis because of the evaporation of the flood waters. Georgia, the 5-months-old daughter of Mr. and Mrs. William Armbrecht, of No. 1110 Winstanley avenue, died suddenly. Coroner McCracken held the inquest, the

jury returning a verdict of death due to heat prostration. Mrs. Daniel Paxton of St. Louis was overcome by the heat at noon while waiting for a Suburban car at Missouri and Collinsville avenues. She was assisted Merker's drug store, where restoratives were applied, after which she was assisted

G. Grovinski, a Pole, employed in the railroad yards, was overcome by the hea yenterday afternoon. He was revived and

DANIEL J. KELLEY STILL IN MONTREAL.

Folk Will Attempt to Have Bribery Included Among Extraditable Offenses.

MAY DENY LEE'S STATEMENT.

Farris, Matthews and Smith, It Said, Will Make Alum Charges a Question of Verneity.

Circuit Attorney Folk yest-rday received information contradicting the report that Daniel J. Kelley, the alum legislative agent, had sailed for Europe. It is said that Kelley is still in Montreal.

Earlier in the day the C'reult Attorne was informed that Kelley had sailed last Saturday, Should Kelley decide upon a change of base, it would not affect his status under the law, in regard to extradition proceedings.

Mr. Folk stated last night that the extradition treaties between the United States and England applied alike to the islands of Great Britain and the English possessions. It is under tood that an effort will be nade to have a clause inserted in the present treaty, covering bribary, not alone in regard to England, but with all European ountries

The adoption of such a clause by Mexico expected to pave the way for similar action by other civilized countries, as the argument that bribery is often a political offorse can hardly be used, since the recent levelopments in this city and State.

William F. Nolker, secretary of the St. Louis Brewery Association, yesterday told Circuit Attorney Folk that two Senators me of whom was Frank Parris, demanded \$15,000 from the St. Louis brewers to defeat the beer inspection bill in 1802. Previous to that time, the brewers had been bled on this proposition

After thinking over the demand the brewers decided not to stand for the hold up. The bill was passed. Two years er, according to information which has air-dy been published, the brewers did pu. ... \$'0,-999 to pass the beer compromise bill, reducing the inspection fees.

Mr. Folk has been given the name of the man upon whom the demand was made four years ago, and will investigate the subject further. The information in his possession involves a Senater who has not een placed in an unfavorable light thus for Among those familiar with the situation it is said that "Colonel" William H. Phelps probably will appear in St. Louis next week to talk to the Grand Jury. Though there are upwards of 100 subpoenas out for Phelps, Mr. Folk has been unable to get

The Sheriff of Jasper County, a Republican, who ower his election to Phelps, has returned subpoenas for Phelps unserved, with the notation "not found" written on the back. Special messengers sent to that county have always arrived a day or so too late. Yesterday Mr. Folk issued several more subpoenas for the clusive legislative agent in expectation that he will be back i the State before many days.

According to one of the Senators who ha ocen indicted by the Cole County Grand Jury for bribery in connection with alum legislation, every effort will be made to discredit the testimony of John A. Lee in the trials against Farris, Matthews and Smith All three will go on the stand to deny the story, which is credited to Lee, so the jury will be compelled to judge the veracity of

MENTIONED AS LEO'S SUCCESSOR. HOUSE AMENDMENT AGAINST ARBITRARY,

Heavy Penalty Must Be Paid City if Terminal Association Should Fail in Contract.

BILL WITH CHANGES PASSES.

Sharp Debate Occasioned by Introduction of Measure, Which Will Now Go to Council for Action.

HOUSE OF DELEGATES' TERMS

FOR PASSING LOOP ORDINANCE. Abolish bridge arbitrary.

Through bill of lading to St. Louis. . Upon failure to abolish arbitrary • to pay \$100,000 first year and \$200,000 • every year thereafter that arbitrary . is not abolished

Board consisting of Mayor, President of Terminal Association and presidents of business organizations
 shall decide whether Terminal Asso. ciation has fulfilled terms.

E+++++++++++++ By a final vote of 19 to 8. Council Bill No. 13. better known as "the Terminal loop bill," passed the House of Delegates last night as amended by the Railway Commit-

The original vote on the amended bill stood 15 to 12, and the victorious side stated, after the bill was passed, that they feared defeat until the last moment, when Hagerman and Stoops were kept in line to off-set the vote of William A. Block, who voted for the amendments, but against the bill. The amendments demand that, in return for the franchise, the Terminal Association shall abolish the bridge arbitrary, or, in case of its failure to do so, pay to the city of St. Louis \$100,000 for the first year the arbitrary is not abolished and \$200,000 every

year thereafter that it is not abolished.

An amendment is also offered that all shipments shall be billed direct to St. Louis. As an amendment to section 12 of the Council bill it is offered that the Terminal Association shall not in any way increase its rate or toll after the abolition of the arbitrary.

Only after sharp debate were the amendments and the bill as amended passed. MOTION TO LAY OVER LOST.

A motion by Mr. Fontana to lay the loop bill on the table was lost by a vote of 11 to 16. Fontana contended that the members of the Council had not learned enough about the ordinances to vote for the best interests of the city. The amendments were carried by a vote

of 15 to 12, and the final vote on the loop bill as amended was 15 to 12. Afterwards Fontana, Brennan, Weeke and Zimmerman changed their vote to aye, making the final vote 19 to 8. The bill as passed will go to

the Council. Amendment to section one of the Council bill provides that conduits constructed for electric wires, pneumatic tubes, gas pipes and apparatus of that kind and all other in existence shall be placed under the tracks of the proposed loop, and shall not be inter-

The Pope prayed for half an hour and fered with. As a substitute amendment to section 11 of the Council bill, which provides for the payment of \$150,000 for the franchises desired, it is proposed that at the end of the year from the approval of the ordinance if it be found that the bridge arbitrary shall the Pope's brightness of mind and display of energy. not have been abolished, the Terminal Association shall pay into the City Treasury \$100,000, and in default of such payment shall forfeit all rights and privileges granted by the ordinance, and that if at the end of two room at \$:20 o'clock this morning, were still years the Terminal Association has not there at 10:15, and it was supposed that a abolished the arbitrary it shall pay \$200,000 and a like amount every year thereafter un-til the arbitrary is abolished.

MUST INFORM MAYOR. A further amendment provides that the Terminal Association shall inform the Mayor when it has abolished the bridge arbitrary, and the matter shall be submitted to a board, consisting of the Mayor, president of the Terminal Association, presidents of the Business Men's League, North ture was made for the extraction of the St. Louis Business Men's Association and South Broadway Merchants' Association, and if any three of the board agree as to to the spinal column, the obtuse sound thus whether the arbitrary has been abolisi action shall be binding. In case the board cannot make a decision the Mayor and the Terminal Association may determine another way to constitute a board to pass upon

pieuric rumblings, together with gurglings The test by which the board shall decide is whether or not the freight rates upon any goods shipped from a point east of the The Pontiff questioned the doctors about Mississippi River to St. Louis shall be the same as on goods to East St. Louis, except "Do not deceive me, doctors, nothing more upon all shipments originating locally either in St. Louis or East St. Louis, or within a He asked if the regathering of the serum radius of fifty miles from both points, and in the pleural cavity means that the disease destined for points on the Terminal As sociation lines, in which case the Terminal fenced, saying it was one of the phases Association shall be entitled to a charge

not to exceed 29 cents a ton. GAZZOLO'S MOTION PASSES. Previous to the introduction of the bill a resolution was introduced by Gazzolo moving that the Railway Committee of the House of Delegates be directed to investigate whether or not the Terminal Association has violated any contract with tha city or any ordinance, and report to 123 House at the meeting in October. The resolution was unanimously adopted.

Speaker Hughes called Delegate Mechan o the chair and took the floor, moving the adoption of the amendments as presented,

urging that they be passed. He also moved for the adoption of the an ended bill.

Birge made a statement on the bill, explaining its provisions as amended and secorded Hughes's motion, Witthoeft spoke in opposition to the fran-

chise being granted, claiming that the Terminal Association would not pay the claims in case it failed to abolish the bridge ar-

Fontana advocated that the bill be laid over for consideration. His motion was lost. Gazzolo, on the wote on the bill, stated that he could not vote for it. McCarthy also spoke, objecting to the levee being fur also spoke, objecting to the levee being fur-ther occupied. Hagerman objected to that part of the amendments which called for a money payment from the Terminal Associa-tion, in case it did not aboilsn the bridge arbitrary, claiming that the shipper would have to pay the fine, indirectly. He also argued that nine out of fourteen lines in the Terminal Association would not mind the abolition of the architrary, and therefore would object to paying a share of the fine, W. A. Block protested arcainst the lower
